

Kenny Lattimore, Just What It Takes

Just another story of the lost and lonely
Stuck right in the middle of two broken hearts
Even though you want to have who loves you only
You're afraid to give yourself another start
You deserve better
Girl if you let me
I'll be your everything
I'll give what you need
So think it over
Soon you'll discover
To make the perfect situation what you need is me

Chorus:

I've got just what it takes
Don't be afraid
Can't wait till the day that you will stand beside me
Taking full advantage of my broken heart
I've got a love that's not so much demanding
Just keeps right on giving till it fills you up
I'm gonna hold you
Let me console you
Girl when you're feeling low
I'll be your place to go
So here's my offer
Comes with a lifetime guarantee
From now on lonely nights will be all made history
Cause you've got me

Chorus

Chase your tears away
Bring you out when you're down
Erase the pain
Now that I'm around, cause
Chorus
