

# Kenny Price, Far Far Away

Far far away is my love of yesterday and she's gone gone gone gone from me  
Far far away is my life my love my way  
And wonder where where where oh where can she be  
Days endless days nights dark as may I'm lonely yeah I'm lonely where can she be  
Far far away is my love of yesterday  
Wonder where where where oh where can she be  
[ steel - guitar ]  
Days endless days...  
Far far away is my love of yesterday and she's gone gone gone gone from me
