

# Kenny Rogers, Evening Star

(Written by Barry and Maurice Gibb)

If you never rode West of the Arizona border  
You can turn the other way boy but you never get far  
You be living a lie if you wanna see the wonders of the age  
You must follow the evening star.

Chorus:  
Evening star  
Shine a little Heaven  
On a stranger with no dream  
Where you are.

You can see the loneliness I mean and if I gotta fight  
I can never play somebody else's game  
I can follow the evening star  
Starlight, you never need somebody else's name  
If you follow the evening star.

Have you ever known a sunset when the sky's on fire  
How you end another day boy you've been searching too far  
Like the desert I rode on any memory is lost in the restless wind  
I just lie beneath the evening star.

Chorus:  
Evening star  
Shine a little Heaven  
On a stranger with no dream  
Where you are.

Have you ever held a woman in the California moonlight  
Put your money on a good night if you never been there  
It's a sight for sore eyes if you wanna see the wonders of the age  
Making love beneath the evening star.

Chorus  
Evening star  
Shine a little Heaven  
on a stranger with no dream  
Where you are.

You can see the loneliness I mean and if I gotta fight  
I will never play somebody else's game  
I can follow the evening star  
Starlight, you never need somebody else's name  
If you follow the evening star...
