

Kenny Rogers, Love Song

Why do people cry when
They hear the word goodbye
In a love song

Tears are sure to fall
When you know they gave it all
In a love song

Somehow two lovers get a
Chance at a beautiful romance
And you wish it could be you

'Cause everybody's needing
What the singers all are
Singing in a love song

It can tear you apart
'Cause a word can break
A heart in a love song

They say all the things you feel
And they make it sound
So real in a love song

It seems that everything they say
Is said in such a way
That we believe it's true

'Cause everybody's needing
What the singers all are
Singing in a love song

Each of us know there's no
Guarantee we'll ever find love
And in the songs that we share
The heartache is there to remind us

New love brings a thrill
And we know it always will
In a love song

Happiness can leave
But it helps if we believe
In a love song

There's a part of you and me
In every memory
That tells us who we are

'Cause everybody's needing
What the singers all are
Singing in a love song

'Cause everybody's needing
What the singers all are
Singing in a love song
