

Kenny Rogers, Something's Burning

You lie in gentle sleep beside me
I hear your warm and rhythmic breathing
I take your hand and hold it tightly
Listen, can you not hear our young hearts beating
I kiss the sleep from your eyes
Your smile is sweeter than the morning
And here it comes.

Chorus:
Can you feel it baby
Can you feel it, here it comes
Feel it, Feel it
Fire, Fire
Something's burning
Something's burning
Something's burning
And I think it's love.

And now the sun is burning brightly
We lie in love so close together
I get the feeling deep inside me
My love for you will burn forever.
I cup my hands to touch your face
And once again I feel your fire
And here it comes

Chorus:
Can you feel it baby
Can you feel it, here it comes
Feel it, Feel it
Fire, Fire
Something's burning
Something's burning
Something's burning
And I think it's love.

And I think it's love, love
And I think it's love.
And I think it's love, love
And I think it's love.
And I think it's love, love
And I think it's love...
