

Kenny Wayne Shepherd, You Should Know Better

Who's that sneaking
Around behind my back door
Is that you coming back
To do what you did before
One wrong move will surely
Get you caught in the act
That's a fact
You should know better
You should know better than that
You come home on that stuff
Does he know where you've been
Do you tell him you've been working
Or just hanging out with your friends
Baby one wrong friend will surely
Get you caught in the act
That's a fact
You should know better
You should know better than that
You should know better

When you gonna learn, pretty baby
When you gonna learn
That it all comes back
You get burned when you play with fire
And you should know better than that
Oh yeah, somebody whispers something
Someone else turns it around
Pretty soon there's a rumour flying
It's getting all over the town
It's a sticky little situation
You've been putting me in
'Cause I like what you do
I just know how the story ends
One wrong move
Gets you caught in the act, that's a fact
You should know better
You should know better than that
You should know better
