

Kent, Stay With Me

I feel like everybody said I would feel
it's over now, so kill the lights
all I need what everybody said I would need
I'm tied uptight by your china voice that
always broke
when I made you sad

Stay with me stay
Don't leave in this way
Stay with me stay
I'll do whatever you say

I do what everybody said I would do
It's over now so kill the lights
for, I go where everybody said I would go
like a weeping child
Were you the only one
that made it feel right being me

Stay with me stay
Don't leave in this way
Stay with me stay
I'll do whatever you say

Like today awaits tomorrow
Like tomorrow needs today
I need your simple words to follow
I'll do whatever you say

Stay with me stay
Don't leave in this way
Stay with me stay
I'll do whatever you say
