

Kerli, Death is in Love with Me

Oh don't feel unwanted
My love, I know
I will stand undaunted
Before, your grace

And entirely
And eternally

Death is in love with me
Uh-oh
In love with, death is in love with me
Uh-oh
In love with me
Uh-oh

My life

Too soon to be hunted
Not yet

Cause entirely
And eternally

I know since for years
You have been taking me away
But I always come back
Because theres been so much to do

This time its different
Its our final kiss
My final departure
Ill rise up from the fire
My wings are not strong yet
But I can fly

I can fly
I can fly

Death is in love with me
Uh-oh
In love, death is in love with me
Uh-oh-oh-oh

Entirely
And eternally

I will be yours
I will be yours
I will be yours
I will be yours
I will be
I will be yours
I will be yours
I will be yours
