

Kernaghan Tania, Leave Like A Man

I liked it when you couldn't keep your big hands off me
And giving in was my favourite thing to do
But now I'm feeling temporary
I know you're looking straight through me you're trying to find an
escape route

CHORUS

So leave like a man show me you can pull your boots on and leave me
Leave like a man let that door slam and don't pretend to need me
Cause I wanna know what I'm losing so go on
And leave like a man

Standing here so close I almost want you

My heart remembers love inside those eyes

But you won't kiss me now or hold me like you used to

If I'm not what you're needing show me what you're feeling one last time

CHORUS

I know you're looking straight through me

You're trying to find an escape route

CHORUS X2
