I got the spirit, I'm in the booth and they surround me right now  
Callin' the spirit of the jaguar, chase all bad energy right now  
Meditatin', jumped in a fast car, and the engine tremblin' right now  
Only positivity in this space, we keepin' it safe, we right now  
Aissa, Abu .., Rasulullah  
Hamdulillah

Ayy, you gon' deliver this message, even if you gotta curse, you gon' deliver this message  
Khaza

Are you in search of the big life (The big life)  
Mesmerized by the big lights in the sky  
Took a turn down the wrong road (Turn down the wrong road)  
It's funny that you don't sleep right, home alone  
Could you be seekin' acceptance? (Could you be seekin' acceptance?)  
In desperate need of protection from the night  
Could you be feelin' neglected? (Could you be feelin' neglected?)  
Indulgin' in a few guilty pleasures (What's that? I don't know)  
Ooh-woah (You better know), ooh-woah, oh (It's about you)

I took a pain pill  
Got veins of steel and Navy SEAL (Woo)  
I'm in the game, for real (Ooh)  
Ain't where I wanna be but it's payin' the bill (It's payin' the bills)  
Still I got you under my control, I only come around when I want to  
I know the feeling, winter weather cold  
When the person that you want, doesn't want you  
If I was you then I would block my page, I be flexin' hard, me and bae  
None of this for spite or out of hatred, I be doin' this to motivate you  
I don't go and see the voodoo lady, know that I'm protected by the angels  
Like Muhammad Ali, I'm the greatest  
I'ma make you love me, I'm a gangster  
Genuine with you  
Here go my feelings, take 'em and walk  
I'm so sick of these niggas  
They get in your business and break you apart  
By stealing your energy, playin' their part  
Then go to stickin' your name in the ...  
God be with me, I take it to war  
I'm one of them, I'm not afraid of the dark
