

# Kevin Johansen, Everybody Says

Everybody says to me dont be a stranger'  
Even some strangers say this phrase to me  
Everybody says good morning in the morning  
And when youre eating, everybody says bon apetit'.

Everbody says good evening in the twilight  
Please take care and dont forget to be cool (yourelf)  
Everybody says the same old kind of phrases  
Wonder if everybody means the same thing

Everybody says the grass is always greener  
On the other side, where you can never touch  
Do the right thing and never talk to strangers  
Break a leg and keep your cool, dont mess it up

And never ever judge a book just by its cover  
And whatever else you do, dont push your luck  
Everybody says the Pledge of Our Allegiance  
Wonder if in the same old God we all trust
