

Kevin Tellie, White Lies

I spit out the words that fell into my hand
Tell everybody, yeah, tell them again
Words out of your mouth they turn into white
Don't believe what she said, don't believe what she said

I spit out the words that fell into my hand
Please tell me it's not real, tell me again
I stay under my bed all night long
You believe what she said? well she cant be wrong

I swear to you I'm real
Don't leave me
I swear to you I'm real
Don't leave me

I helped with the words that filled up your head
I'm drowning in, I'm drowning in
They colored me in, they colored me in
I'm three shades of white, I'm three shades of white

I helped with the words that filled up your head
I'm sorry she said, I'm sorry she said
I'm sorry she said well that's not enough
Go wash out the white, go wash out the white

I swear to you I'm not lying
Don't leave me
I swear to you I'm not lying
Don't leave me

I spit out the words that fell into my hand
I'm sorry she said, I'm sorry she said
