

# Keyshia Cole, Got To Get My Heart Back

I know where I went wrong when I loved you more than I loved myself  
I would have done anything for you eh-eh-eh-ehhhhh

I learned when I realized you didn't love me the way that I loved you and now I know, it hurts inside

(2x)

I gotta get my heart back to the way it used to love, , the way it used to be, and the way it used to feel

before I fell in love,fell in love, with you

All I want is true love, couldn't tolerate no more,lovin someone who couldn't learn to love somebody

I see right now,where it's heading down,same road I seen before but no one told me, that it would hurt

THAT'S WHY I GOTTA GET MY HEART BACK

I gotta get my heart back to the way it used to love,the way it used to be,and the way it used to feel

before I fell in love,fell in love, with you

You ain't gotta lie, you see me lookin fly

You want me on your arm ,well I ain't got the time

I seen it all baby, I been around the world

And it's a cold game,everywhere around the world

I see niggas crossed up cuz they the realest

And all the realest niggas in the street don't got no feelin's

It come from being neglected,I'm so alone, and I'm on my own zone

cuz I'm tryin to get my heart back

(2x)

I gotta get my heart back to the way it used to love,the way it used to be, and the way it used to feel

before I fell in love,fell in love, with you
