

# Keyshia Cole, I Love You

(feat. Lil Wayne)

When I found out that you were leaving me  
I couldn't sleep thinking about  
All the things that we been through  
Now all that I want to do is tell you  
That I love you so much  
You know I really really miss you  
All these sweet memories  
I know you can hear me now  
For the record I love you, I love you  
All these sweet memories  
I know you can hear me now  
For the record I love you, I love you

[Lil Wayne:]

I be blowing up the bombest green  
Make me step into that tom machine\*  
Let's step into that time machine  
Tell you what I've seen  
Tell you where I been  
And every day I dream about  
How it seem like everyday was February 14  
Cupid on beam, that arrow's sting  
We were more than a fling  
We were more like a ring  
On ya left hand, tuxedo best man  
The flower girl was supposed to be our girl  
You was supposed to have the bridal and the baby shower girl  
Young Carter, Young Keysh  
Yea this our world  
The new queen, now make Mary prouder girl  
All these sweet memories  
I know you can hear me now  
For the record I love you, I love you  
All these sweet memories  
I know you can hear me now  
For the record I love you, I love you

[Lil Wayne:]

As I blow stink back, I just think back  
About the time I wish I could bring back  
Man, I'm doing a buck down memory lane  
And if I crash just pick up my plane  
Cause I'm talking about we go way back, we go far back  
Before pain guzzler was called jack  
Well now it's back to the future, star track  
Exit memory lane, now where can I park at?  
Pardon me, I just thought back  
Bout how I used to fuck you and you fought back  
Dem late night bed fights neck bites leg bites  
Some times handcuffs, but never read rights  
And now it's never red lights  
Down that memory lane, I know  
So I guess that green light means I go  
Through the fire thinking bout all the flames I know  
Yeah, but you know  
I wish that you change your ways soon enough  
So we can be together  
You just don't understand good love  
And now all we have is memories  
[Lil Wayne w/ Keyshia Cole:]  
And I'm like what did I do? What did I do?  
Whatever it is can I undo?  
You know I got stand for my 1-2  
But my 1-2 is nothing without you  
What can I do? What can I do?

Whatever it is can I do it for you?  
Whatever it is can I do it forever?  
For the record every time I hear this record I'm like  
All these sweet memories  
I know you can hear me now  
For the record I love you, I love you  
All these sweet memories  
I know you can hear me now  
For the record I love you, I love you  
So now when I think back on the times  
That you shared with me baby  
No one could ever compare  
To the love you, (to the love you)  
That you brought to me baby  
So why did you have to go away?  
I miss you so (I miss you so)  
But I'm sure you know, that I have all these sweet memories  
All these sweet memories  
I know you can hear me now  
For the record I love you, I love you
