

# Keyshia Cole, No Other

(feat. Amina Harris)

Ooohhh Ohhhh Ooohh Ooohhhh

You had a way of making me laugh when I didn't wanna smile, that made me listen and any question

I'm better off being by myself alone hate it when u call my phone telling me you care but I don't feel

[Chorus:]

Seems like everytime I'm looking into your eyes I can tell what you want from me another chance I

I'm not at all better but I knew I had to make the decision (it was wrong) too late to ask...

Get away, something I had to do to you love I ain't been missing and my spirit is so proud of me that

I'm better off being by myself alone hate it when u call my phone telling me you care but I don't feel

[Chorus:]

Seems like everytime I'm looking into your eyes I can tell what you want from me another chance I

Hold on to memories just cause my heart chained on me that can't find somebody to take my place

[Chorus: Until Music Fades]

Seems like everytime I'm looking into your eyes I can tell what you want from me another chance I
