

Keyshia Cole, Young Folks

Plain Pat What up (owwww)

Uh [x18]

I've always been the same since back in the day

Always felt like we should get paid

We are magazine or we get played

Why did he say "I don't know ask Gabe"

Now I'm on the magazines where the roses are

Poppin' champagne in that rosedon

Won a few awards then we went on tour

And yup in ma bag a whole bag of porn [haha]

Magazines hate him, then they loves him

Then they hate him (we hate him), f**k it what to say then? (f**k it)

Cover of the fader (yeah)

Now I'm on my way up

Now you want me say what? huh you want me say what?

I be talking my shit so I guess I'm a asshole.

They can kick and push like Lu Fiasco

And I guess everytime I'm just gon get in that mode

So up to the press I guess miss that vote

I did an interview the Rolling Stones

Read the interview, man the whole shit wrong

Far as this shit go, you know the way I wanna go

I need Al Gore to recount that vote

You know [x4] uh [background]

You think you really know but you have no idea

You think you really know but you have no idea

You think you really know but I'm right here

You think you really know but you have no idea

And I'm gon stay the same my whole career yeah

I'm gon stay the same my whole career you know?
