

# Kicked In The Head, Us Against The World

When I'm wasted just like everyone else  
And I'm struggling' through all my days  
And my world's gone from white to black  
And I can't get outta this maze  
I need a remedy to keep me young and free  
so that fear won't knock me down  
Odds are against me but deep inside  
I've got the will to stand my ground  
Then my girlfriend is seeing red  
And mother natures just a little unkind  
And the boss man is comin' down on me  
His hot air is such a waste of my time  
I need a remedy to keep me young and free  
so that fear won't knock me down  
Odds are against me but deep inside  
I've got the will to stand my ground  
WE'RE IN THIS ALL TOGETHER  
Man I should hit that bottle  
Cause it's all caving in on me  
And my family makes me wanna kill  
Cause they're consistently so crazy  
I need a remedy to keep me young and free  
so that fear won't knock me down  
Odds are against me but deep inside  
I've got the will to stand my ground  
WE'RE IN THIS ALL TOGETHER  
This is the part when the shit hits the fan  
I turn on my TV and see disaster man  
Lights, camera, action in my living room  
And I can't get enough of the 10 o' clock news  
Serial killers, rapists and nuclear war  
Terrorists and racism, wait there's more  
Fortune and fame becomes depression and drugs  
While the tax money goes to warheads and slugs  
Frustrations come through in stereo sound  
World War III crashes down on your hometown  
What goes up must always come down  
What can you count on when you're pushed to the edge?  
WE'RE IN THIS ALL TOGETHER
