

# Kid Courageous, When Goodbye Means Forever

We've heard of all your stories of how much you care  
But we know what the truth is, you're going nowhere

Taken one step too far this time, no more excuses  
Did you think we'd still be friends, and did you think we'd understand  
That you could break up all of our dreams  
That you could come between a good thing  
Now you're gone, we wrote a song, so sing along, its just for you called

Goodbye means forever  
When goodbye means forever

Save your breath for those that care we've left you behind  
Hope you're enjoying your world cause i'm loving mine

Taken one step too far this time, no more excuses  
Did you think we'd still be friends, and did you think we'd understand  
That you could break up all of our dreams  
That you could come between a good thing  
Now you're gone, we wrote a song, so sing along, its just for you called

Goodbye means forever  
When goodbye means forever

Taken it one step too far this time  
No more excuses i want this off my mind

Remember when we were best friends  
It's over now  
We shared our music we shared out dreams it's over  
Over now
