

Kid Cudi, HEAVEN'S GALAXY

The sun
Yea it shines in me
Surfin sonic vibes
Mission in the deep space
Here they comin I'm not runnin
Whoaa
Ready this
A warning
Warp in over drive
Zoom
Smearing light
Yea we zoom
Endless night
As we go
Explore new heights

Baby tell me if you ready

Through the galaxies
Don't ask why
Take the journey y'all
You will find
In the darkest times
Look for light
See my strength I'm strong
Ain't no fear in me
Never say I can't survive
These Worlds through space and time
I'll see you no goodbyes
I got hope and
We fly
The sun will always shine
Goin high high
These worlds are yours and mine

And we off to
The beyond
Feel the feelin
In me
This calling
In my mind im exploring
Lookin deeper
In me
I'm climbin
Nooo I never losing this fight
Oo
Ohhh
See I am surving this flight in life

Zoom
Stars and light
Yea we zoom
Endless night
As we go
Explore new heights

Baby, tell me if you ready

Through the galaxies
Don't ask why
Take the journey y'all
You will find
In the darkest times
Look for light

See my strength I'm strong
Ain't no fear in me
Never say I can't survive
These Worlds through space and time
I'll see you no goodbyes
I got hope and
We fly
The sun will always shine
Goin high high
These worlds are yours and mine

Never say I can't survive
These Worlds through space and time
I'll see you, no goodbyes
I got hope and
We fly
The sun will always shine
Goin high high
These worlds are yours and mine

Goin high high
