

# Kid Rock, Do It For You

Been sittin alone  
Thinking bout the past  
Another lonely night  
Another empty glass  
This path i'm walkin  
Always seems to lead nowhere  
I wonder how much you think of me  
How we used to laugh  
How we used to be  
It seems like freedom  
Has never had a man so scared

Times might change  
Love it comes and goes  
How I wished I could have shown you  
How deep for you my love goes  
And I know this might seem crazy  
I would end my life for you  
You know I don't want to  
But id do it for you  
Hey id do it for you

I wonder how much you think of me  
It hurts to think the past  
Is all that you can see  
Now it seems like freedom  
Is better then the love we shared

Times they change  
Love it comes and goes  
How I wished I would have shown you  
How deep for you my love goes  
And I know this might sound crazy  
I would end my life for you  
You know I don't want to  
But id do it for you  
Yea id do it for you

Listen to me  
I wonder how long it takes to see  
There's nothing more I want  
Then you here with me  
Freedoms been knockin?  
But I refuse to let her in  
Times they change  
Love it comes and goes  
How I wished I would have shown you  
How deep for you my love goes  
And I know this might sound crazy  
I would end my life for you  
You know I want to  
Come back home and care for you  
Baby id do anything for you  
I'd do anything for you
