Bridge

I'm perfect for you  
You're perfect for me  
You can't stop crying  
Baby, can't you see?

Chorus

You love me  
You need me  
You want me  
You're bleeding  
You can't live without the luxury  
To you just an object  
I am just a project  
A prophecy of your love for me

Verse 1

Contemplating effects of your waiting  
You stand by the stall  
As you pray for me  
You can't live without me  
You love me  
You need me  
You want me  
You're bleeding  
As I pull away  
The train leaves the station  
You chase through the nation  
Just imagination  
Return, just be patient  
Crying and pleading  
When deep inside you're bleeding

I fly away  
Out of your life

Chorus

Verse 2

You always just hated  
The fact that I waited  
As you contemplated  
Your life with me  
Well now this is over  
A simple controller  
A trigger, some powder  
Decides my life for me

Chorus

Verse 3

You could never accept  
The fact that you loved me  
Until it was too late  
Now I'm gone  
I'm moving on  
From you and your crew  
That brought me the hell  
Ruling this day  
You loved me, a friend  
If only pretend  
It had to be real  
Because it fits

Chorus X2
