

Kids In The Way, Stupid Games

It's funny how things change
We're growing day to day
I remember when
We used to say
Wouldn't it be cool
If we could rule the school
We'd walk around just knowing everybody knew our names
The way we combed our hair
And all the clothes we wear
Were all a part of one big game of popularity

Chorus

We tried so hard
To only find
It's all about the inside
And all that time
A frame of mind
Was a waste of time

It's funny how things change
We're growing day to day
I remember when I thought that everything was lame
I thought I'd missed the mark
My life needed a spark
If I could only see that I had everything

Chorus

No more stupid games
No more stupid games
No more stupid games
I said no more stupid games
