

Kids In The Way, The Innocence

Tonight, tonight we're fighting for our lives
And times we had when you were mine

This is all you're hoping for
This is all you want and more
Behind the times we had when you were mine

Come on, come on what are you waiting for
Feel your heartbeat, baby you want more
Come on, come on blood, sweat, and fears
We're leaving everything right here

Tonight, tonight
We'll make the best of broken time
Bury baited hooks and rhymes behind
The Innocence of feeling fine

This is all you're hoping for
This is all you want and more
Behind the innocence of feeling fine

Come on, come on what are you waiting for
Feel your heartbeat, baby you want more
Come on, come on blood, sweat, and fears
We're leaving everything right here

Let your body move, oh oh
Let your body move, oh oh

Come on, come on what are you waiting for
Feel your heartbeat, baby you want more
Come on, come on blood, sweat, and fears
We're leaving everything right here
