

# Kieran Goss, You Wait For Me

Heroes always disappoint me  
They ride away when you need them most  
Oh guardian angel please anoint me  
Before I turn into a ghost

I'm on the bridge, a boat is under  
I watch it sail into the bay  
Oh the days of wild and wonder  
I never saw them slip away

You wait for me, I wait for you  
I keep a place here in my heart  
You wait for me, I wait for you  
That's the best thing I can do

I'm in a dream, the crowd behind me  
I try to scream, but who's to hear  
And as they move in to surround me  
That's the moment you appear

Wide awake, it's nearly morning  
Sleep will ease a worried mind  
And memory is just a warning  
Careful who you leave behind
