

Kill Paradise, All For You

It's Summer time break it down heart attack
On the same path as a dart and tack
Hold you cause I need you there
Take it cause it's only fair
Whatcha wanna go for why'd you wanna do this
I hope that you are happy
You are only empty
Everything I do is empty without you
Your taking everything that seems so true
(Chorus)
So how do you feel now my love
You're always in every one of us
And nobody will ever shake the way you do
Your digits are a candy sin to you
I'm letting you go just like the birds
I feel like I've empty all your words
Form singles takes, to mountaintops, liquor cakes, to lemon drops
It's all for you, it's all for you
(SHAKE, SHAKE)
Shake it up, shake it up
Go dip it in the water and I hope you had enough
I see your only instinct your only on the outside
BURNING IS MY HOBBY AND DYING IS MY PASS TIME
Your recreated, so don't get motivated
Your changing is outdated and you're just overrated
I'll keep you captivated just watch me!
So truly underrated just touch me!
(Repeat chorus)
Lets go! Ha Ha
You know you are the best [best]
It's shaking inside your chest
Closure just outweighs the rest
So why, why is it I will bury in tree
When you left without hope and imprisoning me
With everything that a teacher can see
Realize that hope that will bring you to me [to me]
From trenches to glory
Oh Baby that is the story
You know that this could get gory
For he? it's only, youve got it, it's morning
(Ah ah ah ah ah ah.)
(Repeat chorus twice)
