

Kill Paradise, Crystals

Crystals

(Lets go lets go lets go.)

Red Rose I want to hold you close to my nose

Red red rose

Red Rose I want to hold you close to my nose

Red red rose

Now you can play your tricks on kittens

But I just need you now I'm smitten

Now my heart is pitching

Now I got now

No one knows what to do with you now, red rose

(Chorus)

Why fall in love

It's only happy faces

And why do you love

Now why do I fall in love

It's only happy faces

You're on the dance floor, exactly what you looking for

Nothing more, nothing more

Is this a trend your on your back again

On the curb once again

Fingers in the air

I can understand where we are

So far.

And we hade the time of our lives

I'm still sad

Kisses under the lights it's a fad

And now I'm dripping with what I had, with what I had (with what I had...)

(Repeat chorus 3 times)
