

# Killer, Hide & Seek

Why don't you go to the forest and seek a little tree  
Cut it off, pick it up, and then bring it to me  
We'll make a little fire and sit our asses down  
And for a while we can think we have a fire of our own

Why don't you go on

Don't say goodbye  
Just wait for a better time  
You'll be fine, always mine, I hope you don't mind  
I'll be yours and you'll be mine till the end of time

I plead guilty  
'Cause I know I'll be free  
Please, come inside me  
We'll play hide and seek

Please hold me tight  
Won't you let me spend the night  
It's not a crime to look into my eyes  
It's not a crime to have the time of your life

Set me free  
Shout it out  
Shout it out  
Shout it out loud now
