

# KILLING SILENCE, Temporary State

Mindless craving, there's a way to waste your time.  
Daring to be reckless with your only life.

How about trying something from the brighter side?  
Now you're waisting listlessly and in denial.

And yet again you're here just going through the motions,  
it always leaves you feeling tattered and broken and you cry.  
Sitting in a room you're dealing with emotions,  
cradling your head you're waiting for the moment you could die.

Why don't trying something from the real life?  
No more wasting listlessly and in denial.

Next time, when you feel it coming from deep down inside you just remember to tell yourself one th  
I have been here before,  
I have been here before  
and I know that this is only....

Temporary! Temporary!

The brighter side... No more wasting listlessly and in denial.
