

# Kim Carnes, I'd Lie To You For Your Love

(Frankie Miller/D & H Bellamy/Jeff Barry)

I watched you walk into the room  
I wanna say this just right  
If you ain't waiting for somebody special  
Would you be with me tonight  
I'm a doctor I'm a lawyer  
I'm a movie star I'm an astronaut  
And I own this bar

And I would lie to you for your love  
Yes I'd lie to you for your love  
I'd lie to you for your love  
And that's the truth

I could tell you what you wanna hear  
And some secrets about myself  
I could tell you you're the only one  
And there could never be nobody else  
I'm a doctor I'm a lawyer  
I'm a movie star I'm an astronaut  
And I own this bar

And I would lie to you for your love  
Yes I'd lie to you for your love  
I'd lie to you for your love  
And that's the truth

I'm a doctor I'm a lawyer  
I'm a movie star I'm an astronaut  
And I own this bar

And I would lie to you for your love  
Yes I'd lie to you for your love  
I'd lie to you for your love  
And that's the truth

And I would lie to you for your love  
Yes I'd lie to you for your love  
I'd lie to you for your love  
And that's the truth
