

# Kim Carnes, One Kiss

(Kim Carnes/Bill Cuomo/M. Paul)

I sit here looking at the stars in the sky  
Making their patterns  
As breezes blow by  
I recognize something  
As it comes into view  
A face in the stars  
And it's you

One kiss to last a lifetime  
One kiss I remember it all  
One kiss

Always the shiver  
You were always the chill  
On the edge of emotion  
Watch what you wish for  
Cause it just might come true  
I wished for the moon  
And got you

One kiss to last a lifetime  
One kiss I remember it all  
One kiss there in the moonlight  
One kiss it was you  
One kiss one kiss  
One kiss it was one kiss

I sit here looking at the stars in the sky  
Making their patterns  
As breezes blow by  
I recognize something  
As it comes into view  
A face in the stars  
And it's you

One kiss to last a lifetime  
One kiss I remember it all  
One kiss there in the moonlight  
One kiss it was you  
One kiss one kiss  
One kiss it was one kiss

One kiss oh one kiss one kiss  
One kiss it was one kiss  
One kiss one kiss  
One kiss one kiss it was you  
One kiss I remember you

One kiss one kiss  
One kiss one kiss  
One kiss one kiss
