

# Kim Lucas, Let It Be The Night

Tonight, tonight, tonight x4

Let it be

Let it be }3

Let it be the night

Let it be

Let it be.

chorus-

Let it be the night

tonight I wonder

let it be the night

tonight I dream of all

let it be the night

tonight I wonder

awake with the sun

and the dreams

on my mind.

I dance in the light

Under plastic sky

I'm a butterfly

And I wanna fly

bridge-

Here, tonight,

I feel something strange

in my soul

I look all around me

and

I see

the life is not only black and white

chorus

I look to the stars

They smile down at me

All is clear and bright

Now it's plain to see

bridge
