

# Kim Mitchell, World's Such A Wonder

Ain't no wrong, ain't no right now  
We got everything that it takes  
Sometimes I gotta howl at night  
Just to hear the sound that it makes

Don't let this ride get to ya  
We all gotta do what we do

World's such a wonder sometimes frightening  
Burning just as bright and fast as we can  
World's such a wonder sometimes frightening  
I have saved a little place here for you  
Life's such a wonder sometimes

I want it now want it right now  
I want it bigger than big  
I want no end in site thing  
Bust it up just to see if it breaks

I'm not gonna walk on my tiptoes  
I've just gotta do what we do
