

Kim Richey, Don't Let Me Down Easy

The choice of words don't matter
The meaning's still the same
It won't make me feel better
To hear I'm not to blame
Someday I'll forgive you
Maybe then again I won't
But I take no consolation
In what the future holds

CHORUS:

Don't let me down easy
Just let me go
Don't tell me you'll call me
When we already know
This goodbye will last forever
So let the bad times roll
But don't let me down easy
Don't let me down easy
That's a hard way to go
I shoulda seen it coming
I shoulda faced the facts
The more love that I gave you
The less love you gave back
I guess I thought you'd come around
Yeah, well we all make mistakes
There ain't nothin' good about this
There ain't nothin' left to say
REPEAT CHORUS
