## Kim Richey, Fallin'

Feeling stronger
Uptown and braver
I'm moving straight through yesterday
Full on and higher now
I'm wading through the doubt
Opened up, i'm turning every page
CHORUS:

And I went outside and I Looked up at the late night sky And I saw a star fall down

And I thought as it blazed across the night

I remember fallin' I remember fallin' Best friend and lover Felt like forever

Every fiber, every day Nobody quite like you Never a voice so true

Too bright to ever fade away

REPEAT CHORUS

The story's over and I've lived through the ending

But that doesn't mean I wouldn't

Do it all again I remember fallin' I remember fallin' I remember fallin' I remember
