

# Kim Richey, Good

You've got a way about you  
I haven't laughed since he's been gone  
He was a sad song playing  
Over and over for too long  
And I loved him so much  
I was so sure of what we had  
That when he left me  
He really left me bad

CHORUS:

Good...good enough  
I'm feeling good...so good  
I'm feeling good enough to love again  
So good...back on the mend  
Oh (yeah) you make me feel good  
Good enough to love again  
I don't know how you do it  
But baby, I'm sure glad you did  
Even ol' what's-his-name  
Could never get to me like this  
You're like a good dream  
About the best I've ever had  
It turns out his leaving  
Really wasn't all that bad  
(repeat chorus twice)  
Oh you make me feel good  
Good enough to love again
