

Kim Richey, Wildest Dreams

Dialed up your number
Though it's kinda late

You said call anytime

I got something to say

You need to know that I ain't fooling around
In case there's any doubt
But if there's any question

CHORUS:

Let me spell it out A to Z

Your kind, honey, is a dying breed
Yeah, no one else ever done that to me

Not in a million years, not in my wildest dreams

All I had to say was

Right on my lips

It was so much more

Than just a goodnight kiss

Hey this ain't something I would kid you about

But if there's any question
In case there's any doubt

REPEAT CHORUS

We've stumbled onto something
It's feeling pretty good

It only took one look
I knew it in an instant

REPEAT CHORUS
