

# Kim Wilde, I've Found A Reason

Been a long time alone now  
Only live every day on my own terms  
Doing everything my way  
If you don't understand you had to learn

You say you see a different world  
That you don't believe in what I say  
Now you walk into my world  
Aware of the danger  
But you won't turn away

Somewhere down the road I left a part of me behind  
The girl you want to know left years ago  
Before she lost her mind  
You brought back the heart in me  
I thought I'd never find  
'cos I didn't care before  
But now I've found a reason

Baby, how did you find me  
I've been lost for so long without a trace  
You came back to remind me  
Got me back from a sad and lonely place

And all the ghosts have disappeared  
You've taken away the things I've feared  
I've turned my back on all the pain  
You gave me a reason to live my life again

Somewhere down the road I left a part of me behind  
The girl you want to know left years ago  
Before she lost her mind  
You brought back the heart in me  
I thought I'd never find  
'cos I didn't care before  
But now I've found a reason

You were there before my eyes  
How could I have been so blind  
I've got one life  
I've been wasting time  
You came to save this heart of mine

And all the ghosts have disappeared  
You've taken away the things I've feared  
I've turned my back on all the pain  
You gave me a reason to live my life again

Somewhere down the road I left a part of me behind  
The girl you want to know left years ago  
Before she lost her mind  
You brought back the heart in me  
I thought I'd never find  
'cos I didn't care before  
But now I've found a reason  
Now I've found a reason
