

Kimbra, replay!

What you doing with my head?
I can't get caught up Again
What's the matter with my head?
Stuck in automatic
What's the matter with my Brain?
I'm master of my domain
What you doing in my head?
Can't stop the replay

Well I'm all play, I don't hate, don't wanna fight
Bite bullets cos I gotta get you out of my sight
but I don't want the movies to play in my mind
drunk on your touch like a moth to the fire

I don't wanna be followed around and torn up
Over and over and over
but I don't wanna feel nothing without you around....

WHAT!
WHAT!
What's the matter with my Brain?
I'm master of my domain
What you doing in my head?
Can't stop the replay

You trigger my
Freeze or fight or flight
i can't rewind
or fast forward in time

I'm running circles like a muse with no head
nothing beautiful is yet to be spared

All I see
All that stays
Are pictures of us on replay
All I see
Is all that pain
Pictures of us on replay

On replay
On replay

I'm on role play, smile and wave, say that I'm fine
Make an ally of the sun so I can stay in the light

Cos I don't want the dark to sneak up like a spy
See what you've done I can't sleep through the night

I don't wanna be caught in the crossfire of your love
But I don't wanna feel nothing without you around...

All I see
All that stays
Are pictures of us on replay
All I see
Is all that pain
Pictures of us on replay

On replay
On replay
