

Kina Grannis, Ours To Keep

How does circumstance
Seem to cost us every chance
At living out the truth in our hearts
It seems the best laid plans
Fall just outside our hands
And leave us broken down and far apart
But if faith plays a role
I know someday Ill hold you in my arms forevermore
So lets love like its ours to keep
Love like weve always dreamed
And maybe this time
The fates will be kind to us
So lets love like its ours to keep
I wish there was a way
That we could somehow stay
In this perfect moment in time
Id give up everything
Cause this is all I dream about
Whenever Im alone inside my mind
I pray faith plays a role
So that someday Ill hold you in my arms forevermore
So lets love like its ours to keep
Love like weve always dreamed
And maybe this time
The fates will be kind to us
So lets love like its ours to keep
So lets love like its ours to keep
Love like weve always dreamed
And maybe this time
The fates will be kind to us
So lets love like its ours to keep
