

# Kindred, Stars

STARS

by Kindred the family soul

(verse 1)

So many times,  
You could have walked away  
But I didn't have to say a word  
To convince you to stay  
Cause you know it and I know it this thing is real  
So we continue to learn  
And our love grows deeper still  
Each day, I watch you get better at this  
Each moment I am more and more convinced  
We trusted in love  
We took the wings  
We ran our own pace  
We won our race  
I could never turn away

(Chorus)

We come (we come)  
So far (so far)  
Stars do come true baby (baby, baby)  
My heart (my heart)  
Belongs (belongs)  
Right here next to you baby (you baby)  
Yeah, yeah

(verse)

If I had just one wish  
It would be to stay together  
Stay together, let's roll together  
It's not much to ask of us  
I know we can do it  
I've always known it  
Always look at me the way you do today  
Treat me like a friend  
Listen to what I say  
Cause girl I put you, lift you up (baby)  
All the way  
But I could never turn away

(Chorus)

(Bridge)

Always stay with me  
say it when you do today  
Treat me like a friend  
Listen to what I say  
Say it  
Oh yeah  
Oh no no no no  
I could never turn away

(Chorus until it fades)
