

King Crimson, Get Thy Bearings

Get your bearings, know your time
Don't you worry, the weather's gonna be fine
All the world knows what I'm saying
All the world knows what I'm saying

Let's all get stoned
Higher and higher

Get it together, work it out
Simplicity is what it's about
All the world knows what I'm saying
All the world knows what I'm saying

Let's all get stoned
Higher and higher
