

# King Prawn, Lonliest Life

The time has come for us to part  
And now its time to make a start  
You go your way and I'll go mine  
There's the timing factor  
Hail to time

And I say  
It's the lonliest life  
As the world just passes my by  
Say  
It's the lonliest life  
As the world just passes me by

And so it all come to an end  
Curtain falls and quiet as you say  
Left on my own I see what I find  
It's the lonliest feeling of falling behind

And I say  
It's the lonliest life  
As the world just passes me by  
Say  
It's the lonliest life  
As the world just passes me by

And I say  
It's the lonliest life  
As the world just passes me by  
Say  
It's the lonliest life  
As the world just passes me by  
Say  
It's the lonliest life  
As the world just passes me by  
Say  
It's the lonliest life  
As the world just passes me by
