## King Prawn, No Peace

Tonight this city won't know peace Just broken glass and shattered dreams And now I'm gonna take whats mine It's just a symptom at that time

And the tension mounts in the city tonight
The tension mounts in the city tonight
Tension mounts in the city tonight
Tension mounts in the city tonight

Fear and confusion's all around Nobody know which way to turn There was a time when we would dread But through this minefield now we tread

And the tension mounts in the city tonight

And the tension mounts in the city tonight
Tension mounts in the city tonight
