

# King's X, Save Us

save us from war pigs, atomic bomb  
mass destruction, fallen one  
from deception, from the lies  
mind pollution, from mankind

na na, hey hey

save us from history repeating itself  
from religion, from this hell  
from the powers that oppress  
north and south, east and west

na na, hey hey

need a little loving, open arms  
and forgiving, free from harm

na na, hey hey
