Kingdom Come, Bon Scott

Stood up spoke his mind Never pointed finger Cried out many times A god's given bringer

Are you digging this Going back in time Music old or new You always come to mind

Bon Scott that it is Your words never missed In after life I believe You ain't no history Hope you're feeling free

Perfect play on words Something I could lean on This song's in return For helping me ride on

Bon Scott that it is Your words never missed In after life I believe You ain't no history Hope you like what you see And feeling free - Yeah You know the piace you got the key

Bon Scott that it is Your words never missed In after life I believe You ain't no history Hope you like what you see And feeling free - Yeah Bon Scott that it is The boys keep rocking ot Singing your songs out loud
