

Kings Of Leon, Ragoo

I want to say it's to me to change the world
Now I want to play til they kicking down the door
Now I'll be alright as long as I ain't seen it all
Now I'mma hold you tight to that night we had a ball
We had a ball
Here's to the kids out there smoking in the streets
They're way too young but I'm way too old to preach
They know it all but they still ain't seen the truth
Just play my song and I'll show it all to you
Either way you caught me with your lyin
You caught me with your lyin
You caught me with my pants down
My papa's slave had to go and fight the war
He'd beat 'em all then he took 'em all to court
My papa called and said you'd in the meet
Now he's working awful hard and start to read
Either way you caught me with your lyin
You caught me with your lyin
You caught me with my pants down
We hang even into the ocean
We been running barefoot this spring
We been running barefoot through this spring
We hang even into the ocean
