

# Kirlian Camera, Moon Is Getting Closer

I can't talk to you  
any longer... sure.  
Don't you see anything  
coming, getting closer, now?  
Yes, it's the hazy moon  
still, motionless and cold  
Yes, just the summer moon  
still, motionless and tired.  
Moon is getting near  
to calm down your fear.  
This flight has been easy  
get ready to get off.  
Yes, it's the dreamy moon  
still, motionless and cold  
Just the hazy moon...  
Now your heart is going away.
