

Kirlian Camera, The Hidden Voices

I have looked at the light
one last time into the light
as I had nothing to lose.

Colours...

Colours, show me those killing
colours

friends of your best hours,
the special depth of your soul.

Amaze me with your voice
the same one I've ever heard
among invisible... colours.

But today you're elsewhere.

I don't know why every star is
a failure

shining in somebody's hidden
dreams...

Oh sure, so your dreams come
true...

So, I'm waiting still,

So, I'm seeing this great show,
blessing your kind soul.

No, there is no chance to talk
to my dog,
as everybody says I've to await
my turn...

All that you touch sounds,

all that you tell shines,

wonderful night friend

what may we do, now?!?

Bringing tears to your eyes

believe me it's so sad...

Then I no longer

expected you to come.

Sure, we will have fun

leafing through your pages...

My dear sweet blue eyes,

for sure you didn't know

that mercy itself is here.

So love me, dear ghost

on this opaque shore.

The head of my dog

will be our great food.
