

Kiss, Always Near You/Nowhere To Hide

I've just begun since you've gone, to understand I'm the only one
And if you cross yourself at night
I'll come and see you, don't run and hide
I'm always near you, I'm always near you, near you
And if you turn out the light (turn out the light)
Don't think you'll hide behind the night (behind the night)
And if you touch me, I might
Might turn and see you, don't run and hide
I'm always near you, I'm always near you, near you
I've just begun since you've gone (since you've been gone)
To understand I'm the only one (the only one)
And if you cross yourself at night
I'll come and see you, don't run and hide
I'm always near you, I'm always near you, near you
Don't run and hide, you'll be the only one
I said don't try to hide for me and everyone
Don't try to hide, you'll be the only one
I said don't try to hide for me and everyone
Everyone, oh everyone, oh everyone
Everyone, oh everyone, aha, oh everyone
Everyone, oh aha, aha, everyone, oh everyone, aha, oh aha
