

# Kitty Wells, I'll Be Your Stepping Stone

I'll be your stepping stone while you keep stepping on from girl to girl  
I'll try to keep the pace just looking for a place in your heart within

You told me once just how my kisses thrilled you  
Since that time there's been many lips you've known  
Now there you go again in love with someone new  
So I'll just wait till you need your stepping stone  
I'll be your stepping stone...
